## REPORT OF SCHOOL BOARD.

---

It again becomes our duty and privilege to make to the people of the town, a brief statement regarding the condition of our public schools.

We have been successful in securing faithful and efficient teachers, with but one or two exceptions. The progress made in the different schools has been unusually good.

The Fall term closed so satisfactorily that the coming Spring will find them ready to do good work.

Some of the registers show a great number of absent and tardy marks. Parents should do their part in guarding against these. Habits of punctuality formed in childhood will last through life. Hence, the importance of the children being at school every day, and on time.

School No. 5 has received a valuable gift of pictures and busts, from the American Public School Art League, through the influence of Walter Gilman Page formerly of this town. These add greatly to the attractiveness of the room as well as to the improvement of the mind. More care should be taken to make the room pleasant, which the child is to carry as a picture in his memory through life.

A sum of money not less than one hundred dollars should be used to purchase globes, dictionaries, and books, for supplementary work. It is fast becoming the custom of schools in other towns to use books, aside from those adopted as text books, for supplementary reading and reference.

The room at No. 3 has been re-papered. Repairs have been made outside and the roof still needs new shingles.

No. 8 has been made comfortable and pleasant by covering ceiling and walls with pine sheathing. New windows and doors have been put in; also a new floor laid. The room needs new furniture badly, especially the teacher's desk.

The roof at No. 6 has been repaired. The old chimney which leaked badly has been removed and a new one placed outside. This room should be sheathed like No. 8 as the plastering is loose and in danger of falling. The shed needs new shingles.

The house at No. 2 should be re-shingled in order to preserve it.

Let us look at these matter fairly. Make the appropriation ample, remembering that the requirements of the schools at the present time are greater than in our own school days. If we must economize let it be outside the interests of our children attending our public schools.

Let the fathers and mothers of children in our schools take more interest in affairs concerning their prosperity.

## STATISTICAL TABLE.
